PROFESSIONAL PROFILE

Systems Engineer and Senior .NET Developer with 8+ years of experience designing, building, and maintaining scalable back-end applications. Proficient in .NET, ASP.NET Core Web API, C#, and OOP principles, with hands-on experience in microservices architecture, RESTful APIs, cloud deployments on AWS, and CI/CD pipelines. Strong background in clean code, code reviews, unit and integration testing, and mentoring junior developers. Experience working in Agile/Scrum teams delivering high-quality, well-documented software. English B1 – technical reading and communication.

TECHNICAL SKILLS

.NET & Backend: .NET 6/7/8, ASP.NET Core Web API, C#, Entity Framework Core, LINQ, Dependency Injection, REST, SOAP

Frontend: Angular, React, Vue.js, JavaScript ES6+, TypeScript, HTML5, CSS3, Tailwind CSS

Cloud & DevOps: AWS (Lambda, S3, EC2), Docker, Kubernetes, CI/CD, Jenkins, Linux, Sentry, Gitflow

Databases: SQL Server, MySQL, PostgreSQL, Oracle, MongoDB, DynamoDB, query optimization

Testing & Quality: xUnit, NUnit, PHPUnit, Jest, unit/integration/e2e testing, Code Review, SonarQube

Architecture: Microservices, Hexagonal, Clean Architecture, SOLID principles, design patterns

Other Backend: PHP 8.x, Laravel, Symfony, Go, Java with Spring Boot, Node.js

Methodologies: Scrum, Clean Code, SOLID, Code Review, configuration management

CERTIFICATIONS

- Introduction to AWS: Cloud Computing Fundamentals – Platzi (2025)
- Scrum Fundamentals Certified – ScrumStudy (2020)
- Technological Specialization in Database Management & Security (SQL Server, Oracle, MongoDB) – 2019

EXPERIENCE

Fullstack Developer

Incluirtec | Mar 2026 – Present

- Design and develop scalable back-end services using .NET and ASP.NET Core Web API, implementing business logic, database integration, and REST service consumption.
- Build modern interfaces with Angular, integrating reusable components and REST API consumption.
- Deploy applications on AWS using Docker for containerization and environment management.
- Optimize performance, resolve production incidents, and collaborate in Agile (Scrum) teams focused on quality and value delivery.

Senior Backend Developer

Triko | Nov 2024 – Mar 2026

- Develop and implement backend microservices for TRIKO APP using .NET, ASP.NET Core Web API, AWS, Docker, Kubernetes, and Linux.
- Design and maintain high-availability RESTful APIs and microservices for banking integrations using Java with Spring Boot.
- Publish and maintain production applications with automated CI/CD pipelines and continuous monitoring with Sentry.

Backend Developer

Merqueo S.A.S | Nov 2024 – Jul 2025

- Developed scalable back-end features across multiple projects using .NET, ASP.NET Core Web API, Go, AWS (Lambda, S3, EC2), MySQL, and DynamoDB.
- Integrated requirements for internal dashboard and client-facing web-front projects, improving operational workflows with Vue.js.
- Performed automated testing, documented APIs, and optimized SQL queries in production environments.

Software Development Co-Lead

Samsara Med | Jun 2023 – Nov 2024

- Co-led the full software development lifecycle of a custom healthcare platform using PHP, Laravel, Symfony, REST/SOAP APIs, MySQL, and jQuery.
- Led requirements gathering, system design, development, testing, deployment, and client support.

Fullstack Software Developer

Universidad Santiago de Cali | Apr 2018 – Dec 2023

- Built and maintained information systems using .NET, ASP.NET Core Web API, Docker, Oracle, Node.js, GitLab, and Ajax.
- Optimized SIPAC system achieving a 40% efficiency improvement in academic tracking and technical support.
- Led the redesign of SIPPU with real-time tracking and custom reports, increasing student internship placement rates.

EDUCATION

Bachelor's Degree in Systems Engineering

Corporacion Universitaria Remington | Apr 2021 – Dec 2023

Technologist in Software Systems Analysis and Development

Servicio Nacional de Aprendizaje (SENA) | Sep 2016 – Sep 2018
